

INTERNATIONAL TRADE CERTIFICATE COVER LETTER

International Trade Certificates (ITC) and Good Manufacturing Practices (GMP) certificates are documents that speak to the regulatory status of a natural health product (NHP) in Canada and/or the Canadian manufacturing, packaging, and/or labeling site.

Health Canada has voluntarily issued these certificates in the past as a service to regulated parties. However, the Department has since developed criteria for the issuance of these certificates by a third party. The criteria are available at the following link: <https://www.canada.ca/en/health-canada/services/drugs-health-products/natural-non-prescription/applications-submissions/guidance-industry-third-party-issuance-international-trade-certificates.html>.

Health Canada has been notified by **Aaron Skelton** that the **Canadian Health Food Association**, located at **235 Yorkland Blvd. Suite 201, Toronto, Ontario M2J 4Y8**, attests to meeting these criteria.

If you wish to confirm the validity of a site licence and/or marketing authorization referenced on the attached certificate, you may do so by searching Health Canada's databases at:
